

How would early childhood look if this government put your child at the heart of decisions?

How can you use these resources?

- ★ Engage whānau, tamariki, kaiako and kaimahi on this year's ECE Day of Action.
- ★ Talk to them about what a vision of child-centred early childhood education really looks like, what's at threat, and what's needed for the future.
- ★ Ask whānau and tamariki to add their thoughts to the poster of a child-centred future!
- ★ Contribute your expert thoughts and call on the government for change.
- ★ Brainstorm how you can take this action further: post photos of the completed posters on social media, deliver the posters to your local MP's office, call your local paper to come and take photos ...
